European Lymphatic Symposium, (ELS) 2027, April 15-17, 2027, Budapest, Hungary

April 15		**SPEAKER**	**Organ-Specific Lymphatics in Health and Disease (I)**
8.55 - 9:00	Welcome address		
9:00 - 9:45	Keynote lecture 1	**Timothy P. Padera** Harvard Medical School, Boston, USA	Lymphatic system function in aging and cancer progression
9:45 - 10:00	Short talk 1		
10:00 - 10:15	Short talk 2		
10:15 - 10:45	Coffee break		
10:45 - 11:15	Long talk 2	**David A. Long** University College London, UK	Kidney lymphatics in development, health and disease
11:15 - 11:45	Long talk 3	**Simon J. Cleary** King's College London, UK	Understanding how lymphatics limit lung inflammation
11:45 - 12:15	Flash talks		
12:15 - 13:15	Lunch break		
13:15 - 14:45	Poster Session I		
April 15		**SPEAKER**	**Lymphatic Endothelial Signal Integration**
15:00 - 15:30	Long talk 4	**Sofia-Iris Bibli** University of Heidelberg, Germany	Death by Design: Controlling Lymphatic Fate for Tissue Repair
15:30 - 15:45	Short talk 3		
15:45 - 16:00	Short talk 4		
16:00 - 16:30	Coffee break		
16:30 - 17:00	Long talk 5	**Maike Frye** University Medical Center Hamburg-Eppendorf, Germany	TBD
17:00 - 17:15	Short talk 5		
17:15 - 17:30	Short talk 6		
17:30 - 19:00	Poster Viewing & Beers		
19:30	Speaker's dinner		

April 16		**SPEAKER**	**Lymphatics in Development**
9:00 - 9:45	Keynote lecture 2	**Natasha Harvey** Adelaide University, Australia	Defining the mechanisms by which lymphatic endothelial cell identity is transcriptionally programmed
9:45 - 10:00	Short talk 7		
10:00 - 10:15	Short talk 8		
10:15 -10:45	Coffee break		
10:45 - 11:15	Long talk 7	**Oliver Stone** University of Oxford, UK	Developmental Origins of Lymphatic Endothelium
11:15 - 11:45	Long talk 8	**Kaska Koltowska** Uppsala University, Sweden	Cellular and molecular dynamics shaping lymphatic vessel development
11:45 - 12:15	Flash talks		
12:15 - 13:15	Lunch break		
13:15 - 14:45	Poster Session II		
April 16		**SPEAKER**	**Lymphatic-Immune Interactions**
15:00 - 15:30	Long talk 9	**Kari Vaahtomeri** University of Helsinki, Finland	Guided cell migration in lymphatic system
15:30 - 15:45	Short talk 9		
15:45 - 16:00	Short talk 10		
16:00 - 16:30	Coffee break		
16:30 - 17:00	Long talk 10	**Zoltán Jakus** Semmelweis University, Hungary	Lymphatic–Innate Immune Mechanisms in Responses to Nucleoside-Modified mRNA-LNPs
17:00 - 17:15	Short talk 11		
17:15 - 17:30	Short talk 12		
17:30 - 18:15	Clinical Aspects of Lymphatic Pathologies and Patient Perspectives		
19:00	Conference Dinner		

April 17		**SPEAKER**	**Organ-Specific Lymphatics in Health and Disease (II)**
8:30-9:00	**Election of next organising committee**		
9:00-9:30	Long talk 11	**Paul Riley** Oxford University, UK	The role(s) of the cardiac lymphatics in disease
9:30-9:45	Short talk 13		
9:45-10:15	Long talk 12	**Friedemann Kiefer** Max Planck Institute for Molecular Biomedicine, Münster, Germany	Organ specific lymphatic vessels - structures and functions
10:15-10:30	Short talk 14		
10:30-11:00	Coffee break		
11:00-11:30	Long talk 13	**Ebba Brakenhielm** University Rouen Normandy, France	Cardiac lymphatic dysfunction: Functional, structural and molecular alterations accompanying Heart Failure
11:30 - 11:45	Short talk 15		
11:45-12:15	Long talk 14	**Claus Cursiefen** University of Cologne, Germany	Perioperative antilymphangiogenesis to prevent immune reactions in high-risk corneal transplantation: from mice to man
12:15-12:30	Short talk 16		
12:30-13:00	Awards and closure		
13:00	Lunch and departure
